## Vinculum Communications, Inc. Announces President Retail Sales and Service

San Diego, CA, September 1, 2009:

Vinculum Communications, Inc., a value-added telecom Carrier based in San Diego, CA, is pleased to announce that Jim Comeaux will join the San Diego based leadership team. He will be responsible for leading nationwide sales initiatives for its VinTalk platform, and will manage all Business-To-Business channels, including inside sales, direct sales, indirect channels and service.

“Jim is a seasoned Sales and Operations leader with over 20 years of industry experience. He believes in our model and has seen first-hand how Vinculum Communications’ customers benefit from our best of breed solutions. His strong telephony background, coupled with his customer commitment and professional approach, are all key factors in choosing Jim as our President of Retail Sales and Service”, said Scott Goodwin, Chairman and CEO of Vinculum Communications.

Comeaux has extensive experience in IT-Telecommunications, Internet sales, financial services and marketing, business development, network design and deployment. Prior to co-founding VIVID IP, he worked as the CEO, CTO & Executive Vice President (EVP) of Strategy for VoloNet Technologies, Inc., dba RedWire, one of Southern California’s premier ISP/WISP/VoIP service providers to Small-Medium Businesses.

Goodwin continues “Despite the economic recession, our business continues to thrive. Our clients see great value in our services, and we save them time and money. The leadership team at Vinculum Communications is excited about our business growth. We look forward to expanding our value-added services to new enterprise firms in 2009 and beyond.”
